

Specification Sheet

DRG120 Industrial Dryer

DRG120

Capacity (Wet)	54.5 kg
Volume	1021 L
Drum Diameter	1118 mm
Net Weight (Gas and Electric)	578 kg
Water (C.A.R.E)	1x Standard 19mm Cold Washing Machine Water Tap at 1.6m off Floor
Electricity	415 Volt – 50 hZ
Electrical Recommendations	Three Phase Isolating Switch, 10 Amp Individual Circuit Required
Gas Connection	25.4 mm Gas Isolating Cock
Gas Heating	285 MJ/h
Gas Pressure	Min = 1.13kPa Rec = 1.62kPa Max = 2.61kPa
Flue Diameter	Ø 254 mm
Exhaust Flow Rate (50khz)	755 L/s
Flue Termination	2 x 90° Bends terminating 500mm from roof line – No Mesh or Chinaman's Hats

***Please allow a 25mm gap on sides and a 100mm gap on top if dryer is to be built into an enclosed space.**
